

STATE POWER AND OTHER POWER

WHAT IS POWER?

(SPECIES) POWER TO:

POTENTIA

=: CAPACITIES OF "SOCIAL AGENTS"

individual

collectivities

in Spinoza, "agenthood"-- or better, "being a cause" is defined by the production of effects, or what Lukes (unhappily) terms "outcomes"

(I'd call it "formal causation" and the changing of form, with Marx and Aristotle...)

"Human Powers"

Natural Powers (eg wood burns)

passive

active:
2-way powers:
do, or not
